

# INDEX

S.NO	Particulars	Remarks
1.	Write a C program to find sum and average of three numbers.	
2.	Write a program to find the largest among three numbers using if-else statements.	
3.	Write a C program to Check whether given number is Armstrong Number or Not.	
4.	Write a C program perform arithmetic operations using switch statement.	
5.	Develop a program to display the Fibonacci series up to n terms.	
6.	Implement a program to find the factorial of a given number using a while loop.	
7.	Write a C program to find the roots of a quadratic equation.	
8.	Create a program to calculate the distance between two lines using a user-defined function.	
9.	Write a C program to find factorial of a given integer using recursive function.	
10.	Write a C program to generate Fibonacci series using recursion.	
11.	Create a program to swap two numbers using call by value and call by reference.	
12.	Create a program to calculate the slope between two lines using a user-defined function.	
13.	Write a C program to perform addition of two matrices.	
14.	Write a C program that uses functions to perform Multiplication of Two Matrices.	
15.	Write a C program to concatenate two strings without using the library function.	
16.	Write a program to store and display the details of a student using structures.
